Dear Brothers & Sisters in Christ:

As an attorney representing hundreds of churches and ministries throughout the U.S. and around the world, I have had the distinct privilege to watch many ministers behind the scenes, away from the pulpit. You can likely imagine that those situations are not always for wonderful celebratory events, and that it is in those difficult times that one's true character is revealed.

It is with genuine sincerity that I am honored to refer Pastor Ron Jutze to you and your ministry as one of those ministers I have now known for several years whose character is built on and exemplifies the rock of Christ. He is unshakeable in his determination to see souls won into the Kingdom in these last days, and he has frequently shared with our firm the brilliant and witty ideas the Holy Spirit has given him to fulfill the Great Commission.

Without hesitation, I encourage you to get to know Pastor Ron and let him partner with you and your ministry to see the full blessing the Lord would rain down upon you through him.

Sincerely in Christ,
