

Dear Pastor,

It is with utmost confidence that I recommend my friend, Ron Jutze. It has been my pleasure to know Ron both on a personal and professional level for about ten years. I met Ron in the early years of EQUIP, and his selfless desire to support the development of leaders and the worldwide advancement of the gospel became obvious immediately.

Ron is an authentic Christian and gifted leader who is radically committed to a vibrant personal relationship with Christ, his family and the growth of the local church. He has an inherent passion and gifting to develop quality leaders who increase ministry effectiveness and advance the cause of Christ in a community. I have observed his personal commitment to building the local church. Ron planted, led and grew a great church in the Southern Tier of New York. His practical approach and big picture church vision attracted and motivated people all over the community to be active in making a difference in their sphere of influence. The results were nothing short of miraculous.

Having been a lead pastor for over 15 years, Ron lives with a constant awareness of the challenges and burdens that pastors and church leaders face on a daily basis. Ron adds great value to the local church because of his skills as a visionary leader coupled with his years of seasoned pastoral experience. His ministry will strengthen pastors, encourage leadership teams and ignite the congregation with a fresh passion for Christ and a renewed commitment to His cause on earth. I would strongly encourage you to open your church calendar/doors to the ministry of Ron Jutze. You will not be disappointed, I promise you.

With you in the Cause that count,

Doug Carter
Senior Vice President
